The International Conference on 4th Industrial Revolution and Beyond (IC4IR) in 2021 will serve as a premier international forum for bringing together researchers and practitioners from diverse domains to share cutting-edge research results obtained through the application of artificial intelligence, the internet of things, data analytics, and cloud computing to solve problems in the industrial domain. The conference will take place in the year 2021 and will bring together researchers and practitioners from diverse domains. IC4IR 2021 also promotes the sharing and dissemination of innovative and practical development of methodologies and technologies with industrial applications through the exchange and dissemination of best practices among the participants.
